

Faculty of Creative Studies

Universidad del Rosario

- Universidad del Rosario was founded 370 years ago.
- 8 years of Institutional Accreditation of High Quality from the National Accreditation Council (CNA).
- 5 years of Institutional Accreditation from the European Quality Assurance Agency (EQAA).
- Accredited as a Family-Responsible Entity (EFR).
- #1 in Colombia, #3 in Latin America, and #28 in the world according to the UI GreenMetric World University Rankings 2022.
- #4 in Colombia by the Times Higher Education World University Ranking 2021.
- #34 in Latin America by the QS Latin America Ranking 2023, placing it among the top 10% of the best universities in the region.

Universidad del Rosario is one of the oldest and most prestigious academic institutions in Colombia, with a history dating back to its founding in 1653. It has played a fundamental role in the economic, political, social, and cultural development of the country, and has been a leader in the history of Colombia and a cradle of national critical thinking.

Moreover, the Universidad del Rosario has demonstrated its ability to adapt to the challenges of a constantly changing and globalizing society. It offers innovative learning processes that position it at the forefront of academic training, making it a notable institution in the region.

The Universidad del Rosario has nine faculties and schools:

- Economics
- Law
- Creative Studies
- Natural Sciences
- International, Political, and Urban Studies
- Medicine and Health Sciences
- Business Administration
- Humanities
- Engineering, Science, and Technology

¿Why study at FaCrea?

[1]

[2]

[3]

The Faculty of Creative Studies, FaCrea, provides interdisciplinary and comprehensive training aimed at forming professionals with creative and innovative perspectives. You will be part of a talented and passionate community that integrates architecture, arts, design, musical theater, creative and cultural industries, crafts, and artisanal knowledge in a unique educational experience.

The Faculty has five undergraduate programs: **(1) Arts** with minors in Visual Arts, Digital Arts, and Performance Arts; **(2) Architecture** with minors in Sustainable Architecture, Ephemeral Architecture, and Urban and Regional Design; **(3) Design** with minors in Industrial Design, Visual Communication, Fashion and Textile Design, Experience

and Service Design, and Video Game Design and Animation; **(4) Musical Theater** with immersive studies in Performance, Pedagogy, and Production; and **(5) Creative Studies** with a minor degree in Creative Industries and all of the aforementioned minors. We also have a successful musical theater production company called **MISI Productions**, a school for children and youth called **MISI Musical Theater School**, a creative school for all ages called **MISI Creative Workshop**, and a consulting center in creative and cultural industries called **Creative Factory**. In addition, we have processes that position it at the forefront of academic training, making it a notable institution in the region.

Our distinctive features

We have established a unique agreement with 'Artesanías de Colombia', a public-private entity, to collaborate on researching and training Colombia's artisanal knowledge.

FaCrea focuses on the heritage, crafts, and artisanal knowledge of Colombia, the region, and the Global South, and prioritizes social and environmental sustainability in creative models.

[2]

[3]

[4]

[5]

[6]

Our distinctive features

Since 2020, our Faculty has hosted the "**South-South Creative Dialogues**" in which we invite prominent individuals from the creative field of the Global South to present their work.

Leyla Cárdenas - **Arts** - Colombia
Gracias Company - **Design** - Colombia
Katie James - **Music** - Colombia / Ireland
Daniel Luppo - **Theater** - Argentina
Carlos Repetto - **Cultural Management** - Argentina
Michael Smith - **Architecture** - Costa Rica
Ana Maria Plata - **Design** - Colombia
Patricia Ercole - **Dance** - Colombia
Pedro Salazar - **Theater** - Colombia
Carolina Virguez - **Theater** - Brazil
Carmen Correa - **Dance** - Mexico
Jorge Dubatti - **Theater** - Argentina
Antonio Yemail - **Architecture** - Colombia
Rafael Freyre - **Architecture** - Peru
Pedro Ressig - **Design** - Argentina
Camila Eslava - **Arts** - Colombia
Rubén Darío Suárez - **Music** - Bolivia
Heidi Jalkh - **Design** - Colombia
Danny Jerez - **Music** - Colombia
Natura Futura - **Architecture** - Ecuador
Ana Teresa Barboza - **Arts** - Peru
Rodrigo Torres - **Design** - Colombia
Cazú Zegers - **Architecture** - Chile
Julieth Morales - **Arts** - Colombia
Laura Laurens - **Design** - Colombia
Andrea Defrancisco - **Arts & Music** - Colombia

Contemporary Latin American
Architecture

Decolonial Artifacts and Innovation
from the Other Shore

At our Faculty, we offer a transversal training line called "**Histories of Culture and Creativity**", which focuses on the study of histories and theories of the Global South. This line includes our free online MOOCs courses in art, architecture, and design of the Global South, which have been taken by over 8000 students to date.

We take **original musical theater productions** that explore Colombia's rich cultural diversity, including dances and expressions such as, "The Magical Kingdom of Orchids" and "Gaitán, the Man I Loved," or "She is Colombia", all around the country.

Our distinctive features

In collaboration with Santo Domingo School of Arts and Crafts, we have developed a practical training model in the Common Foundation Year, which is based on trades and experimentation, providing applied knowledge in techniques and materials such as wood, fibers, fabrics, metals, and ceramics.

Here, we learn by doing, immersed in maker and craft cultures, and we train in technologies that stimulate resourcefulness and creativity.

[1]

[2]

[3]

[4]

Our distinctive features

In our **research and creation group in Creative Studies** at the Universidad del Rosario, we investigate Colombia's artisanal knowledge, the future of creative and cultural industries, and explore the maker and craft movements in Colombia. We use an experiential learning model in our classrooms, applying the principles of these movements.

We emphasize management and entrepreneurship in creative and cultural industries. The faculty collaborates with strategic partners to showcase the students' work.

Our distinctive features

In collaboration with CEA Centre for Entertainment Arts, Canada, we offer a **training line in various digital entertainment industries**, including VFX, animation, game design, and more.

FaCrea offers a transdisciplinary experience of creativity with an innovative and flexible curriculum structure in Colombia.

Our distinctive features

FaCrea Elective Courses for 2023

History of jazz through piano
Epistemology of artistic education
Pre-Columbian designs with recycling
Jump and turn techniques
Management and entrepreneurship in creative industries
Pop-up workshop
Technical drawing
Architectural reform in heritage contexts
Comic and illustration workshop
Craft knowledge: Muisca weaving
Basic ballet
Representation media in art
City and territory
Textile design and circular fashion
Urban art and graphics
Fundamentals of conservation of artistic processes and projects
Experimental painting
Circus, movement, and expression
Drawing workshop: travel notebooks
Introduction to action or performance art
Media arts: photography
Introduction to museography

Architectural models and mockups
Gospel choir
Craft knowledge: weaving in werregue
Music, conflict, and peace in Latin America
Women, art, and Latin American creation
Collabor-action: collective artistic process languages and methods
Songwriting workshop
MISI Course
Architecture and utopia
Dance: a history of the body
Indigenous urban art practices
Rumba
Art and ecology workshop
The colors of Bogotá: city drift
Introduction to scenography
Stage management
Stretching and physical conditioning
Food, art, and society
Video art and post-covid-eo art
Light design
Introduction to ceramics
Idea in architecture

Our distinctive features

FaCrea is part of **URSTEAM**, a pedagogical model of Universidad del Rosario that combines science, technology, engineering, art, and mathematics with a focus on projects to develop skills in observation, active listening, and problem-solving.

[1]

[2]

[3]

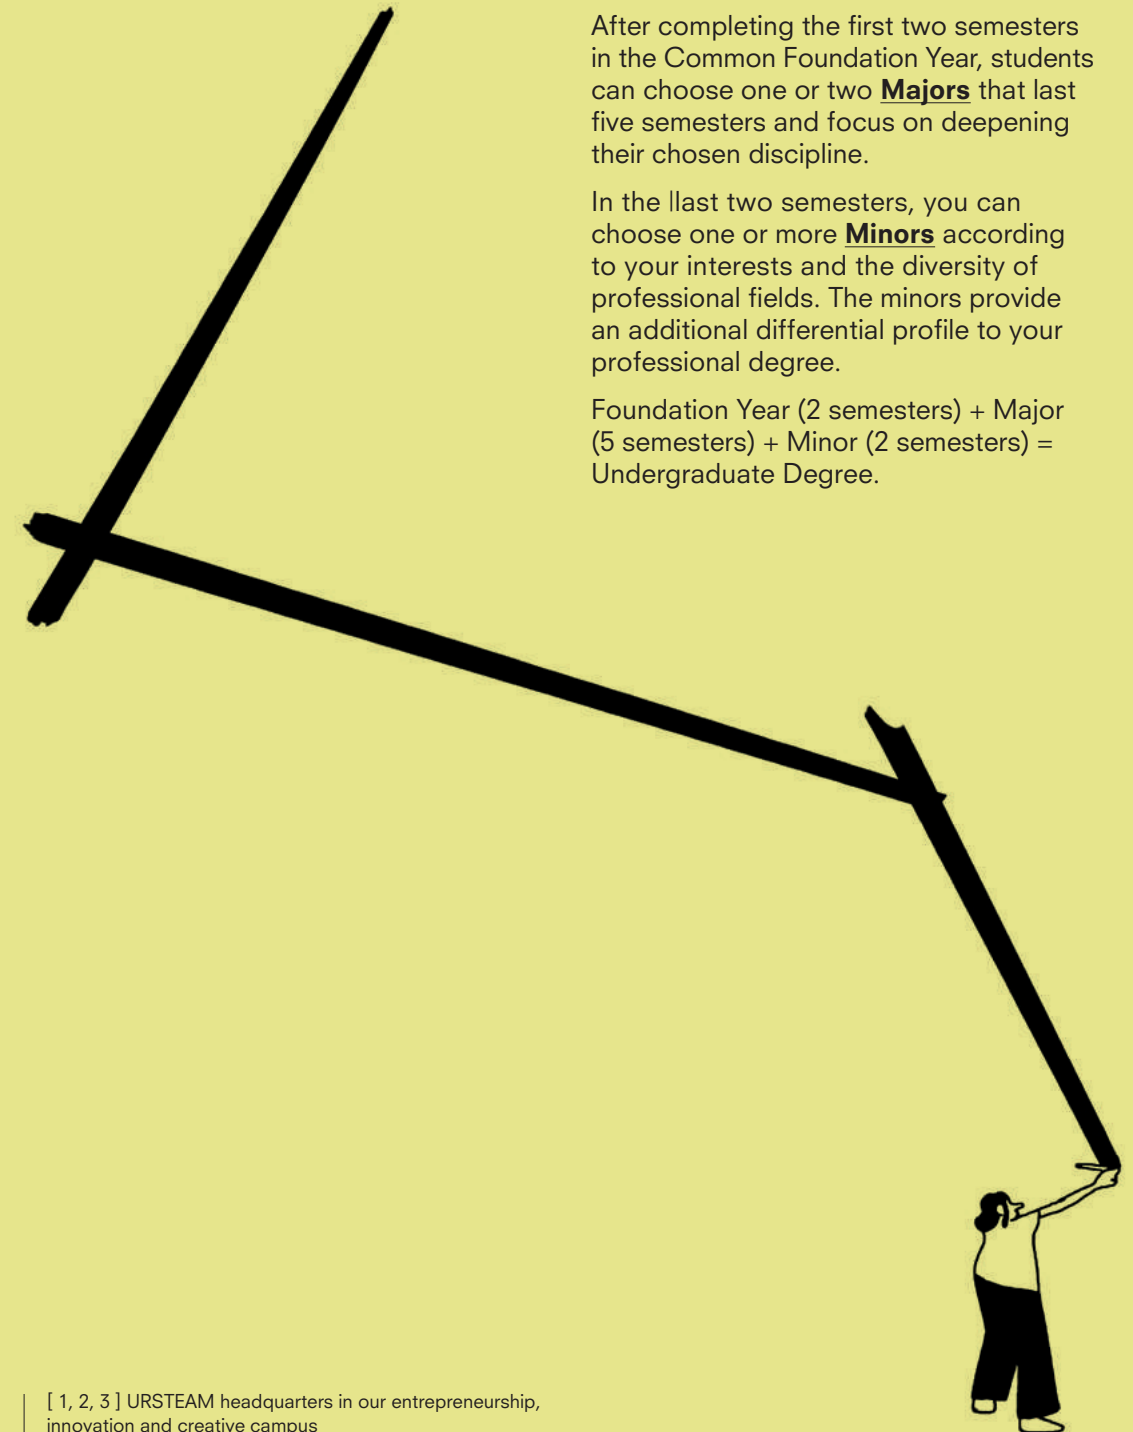

Innovative and flexible curricular structure

The Faculty offers nine-semester undergraduate programs in which the first two semesters focus on the practical and transdisciplinary foundations of the creative universe through the **Common Foundation Year**.

After completing the first two semesters in the Common Foundation Year, students can choose one or two **Majors** that last five semesters and focus on deepening their chosen discipline.

In the last two semesters, you can choose one or more **Minors** according to your interests and the diversity of professional fields. The minors provide an additional differential profile to your professional degree.

Foundation Year (2 semesters) + Major (5 semesters) + Minor (2 semesters) = Undergraduate Degree.

Architecture

Get ready to become an architect capable of facing the great challenges of our cities and territories, and leading innovative and responsible projects that benefit both the environment and society.

Introduction

The Architecture program at Universidad del Rosario focuses on providing a comprehensive and innovative education that prepares students for an interdisciplinary future. The program places particular emphasis on leading projects aimed at improving the quality of life in urban and territorial communities, in a sustainable and responsible manner. Students learn by experimenting with cutting-edge materials, techniques, and technologies.

Program Highlights

- The Architecture program at Universidad del Rosario prepares you to face spatial and constructive challenges with an innovative and environmentally responsible vision.
- We offer education in interior design, sustainable architecture, and urban design.
- You can complement your education with minors in different areas, such as animation and video games, product and furniture design, fine arts, among others.
- You will learn by doing and experimenting with traditional, technological, and cutting-edge techniques.
- The faculty promotes transdisciplinarity and integration of arts and design, offering double program options and opportunities for international exchanges.

Curriculum:

The Architecture Program has three cycles: the Common Foundation Year, the Major in Architecture, and the Minors in Architecture. The Common Foundation Year is essential for learning about arts, architecture, design, and creation.

The Major in Architecture follows the Common Foundation Year. Here, you will study the variables that intervene in the formulation, development, and execution of architectural projects, responsibly and sensitively to the environment, culture, construction processes, and society. It is also possible to obtain a second professional degree by studying the Major in Design, Arts, or Creative Studies.

After completing the Major in Architecture, you can select a Minor in Architecture that suits your interests and the variety of professional fields. You also have the option of taking any other Minor offered by the faculty to diversify your education.

Possible minors for Architecture:

Minor in sustainable architecture +

In this minor, responsible and sensitive architectural projects are developed and executed in relation to the environment, natural resources, and society.

Minor in ephemeral architecture +

In this minor, ephemeral and small-scale architectural projects are developed and executed, as well as the adaptation, rehabilitation, and remodeling of existing spaces and interior design.

Minor in urban and regional design +

In this minor, projects related to cities, populated centers, and territories are developed and executed with architecture fundamentals and knowledge.

Arts

Develop your artistic and conceptual expression through practice and experimentation with innovative techniques and technologies, as well as Colombian cultural expressions.

Introduction

The Arts program at Universidad del Rosario offers a unique educational experience by combining fine, visual, digital and time-based arts. You will integrate cutting-edge techniques and technologies with Colombian cultural expressions, and develop your creativity through maker culture, crafts, and hands-on learning. All of this takes place in an environment that combines arts with design, architecture, theater, music, and dance.

Program Highlights

- The Arts degree at Universidad del Rosario offers a unique educational experience where you can develop your artistic and conceptual expression through practice and experimentation with cutting-edge techniques and technologies, combined with ancestral and indigenous traditions.
- You will have the opportunity to interact with other programs in the Faculty, and design your degree according to your interests and goals, including pursuing a double major or applying for an international exchange program.

Curriculum:

The Arts Program has a curriculum composed of three cycles: the Common Foundation Year (2 semesters), the Major in Arts (5 semesters), and the Minors in Arts (2 semesters). During the **Common Foundation Year**, the fundamentals of arts, architecture, design, and creation are taught in a transversal and comparative way.

Once you have completed the basic cycle, you will enter the **Major in Arts**, where you will acquire technical, theoretical, and methodological tools to develop artistic processes. You will approach the discipline in a sensitive and responsible way towards culture and society.

Once you have finished the Major in Arts, you can choose from various options for **Minors in Arts** according to your interests and professional goals. Additionally, you can also take any Minor offered by the Faculty to diversify your knowledge.

Possible minors for Arts:

Minor in Fine Arts +

This minor deepens students' technique and conceptualization skills, enabling them to strengthen their plastic thinking and develop artistic projects.

Minor in Digital Arts +

This minor focuses on digitization in the creation and interaction with artistic works and processes. Students will combine technologies in areas such as fine arts, video, film, performance, games, design, and online art.

Minor in Performing and Time-Based Arts +

This minor enhances students' ability to propose artistic projects in performance and sound art through various tools and methodologies.

Creative Studies

Lead, undertake, or manage collaborative cultural projects to meet the current and future demands of creative and cultural industries.

Introduction

The Creative Studies program at Universidad del Rosario provides an interdisciplinary educational experience that combines arts, architecture, and design with creative industries. It equips students with the necessary tools to lead, undertake, or manage collaborative cultural projects in the creative and cultural industries sector. Additionally, the program offers knowledge in management and entrepreneurship, allowing students to develop their creativity in areas of their artistic interest.

Program Highlights

- The Creative Studies degree at Universidad del Rosario emphasizes entrepreneurship and management in creative and cultural industries, making it a transdisciplinary program.
- The program integrates Arts, Architecture, Design, and Creative and Cultural Industries, providing a unique experience for students.
- Moreover, from the first semester, students can pursue a double degree program, and from the fourth semester, they can apply for an international exchange to customize their degree based on their interests.

Curriculum:

The Creative Studies Program consists of three main cycles: the Common Foundation year, the Creative Studies Major, and Faculty Minors. The Common Foundation Year is where the essential foundations of arts, architecture, design, and creation are learned in a cross-disciplinary manner.

After completing the Common Foundation Year, students in the Creative Studies program advance to the Creative Studies Major, where they acquire technical, theoretical, and methodological tools to conceptualize, develop, and execute creative projects in a responsible and sensitive manner to the environment, culture, and society.

Upon completion of the Major cycle, the student in the Creative Studies program may choose from Minor options in Architecture, Design, Arts, or Creative Studies, according to their own interests and in tune with the diversity of fields for professional practice.

Possible minors for Creative Studies:

Minor in Creative Industries +

The minor provides tools to develop, manage, and execute projects in creative and cultural industries.

Minor in ephemeral architecture +

In this minor, ephemeral and small-scale architectural projects are developed and executed, as well as the adaptation, rehabilitation, and remodeling of existing spaces and interior design.

Minor in Fine Arts +

This minor deepens students' technique and conceptualization skills, enabling them to strengthen their plastic thinking and develop artistic projects.

Minor in Digital Arts +

This minor focuses on digitization in the creation and interaction with artistic works and processes. Students will combine technologies in areas such as fine arts, video, film, performance, games, design, and online art.

Minor in Performing and Time-Based Arts +

This minor enhances students' ability to propose artistic projects in performance and sound art through various tools / methodologies.

Minor in Visual Communication +

The Minor in Visual Communication focuses on the design / creation of graphic / editorial pieces, digital or analog, through practical exercises.

Minor in Fashion and Textile Design +

The Minor in Fashion and Textile Design provides knowledge applicable to the fashion and textile design industry in Colombia. Emphasis is placed on environmental and social sustainability in creative processes and products, incorporating local techniques and traditions.

Minor in Video Game and Animation Design +

The Minor in Video Game and Animation Design provides technical skills and strategies for the profession.

Design

Develop your creative ideas in any field of design using innovative strategies and methodologies. Learn by doing, mastering both global technologies and local techniques.

Introduction

The Design program at Universidad del Rosario uses creative strategies and cutting-edge methodologies to develop students' potential in various areas of design, from traditional to the most advanced technologies. Students can explore graphic and editorial design, product and furniture design, fashion and accessory design, animation, and video game design, as well as design project management and administration.

Program Highlights

- In the Design program at Universidad del Rosario, you will have access to cutting-edge tools and methodologies to develop your creative ideas.
- You will be able to master local technologies and techniques through practical and critical learning methodologies that focus on the needs of your environment.
- Additionally, you can choose from various minors to acquire unique and personalized competencies according to your interests.
- At FaCrea, you can pursue a double degree program from the first semester or apply for an international exchange program from the fourth semester to create a tailor-made career of your dreams.

Curriculum:

The Design program consists of three cycles: Common Foundation Year, Major in Design, and Minors in Design. The Common Foundation Year focuses on teaching the fundamentals of arts, architecture, design, and creative studies in a comparative and cross-disciplinary manner.

After completing the Common Foundation Year, Design students enter the Major in Design, where they learn to identify, analyze, and apply the multiple variables involved in a design project. The emphasis is on fostering responsibility and sensitivity towards the environment, culture, construction processes, and society.

Design students have the flexibility to choose a Minor in Design based on their interests and in alignment with the diverse fields of professional practice. They can also opt to take any minors offered by the Faculty to diversify their education.

Possible minors for Design:

Minor in Industrial Design +

The Minor in Industrial Design delves into sustainable design and manufacturing processes through practical exercises.

Minor in Visual Communication +

The Minor in Visual Communication focuses on the design and creation of graphic and editorial pieces, digital or analog, through practical exercises.

Minor in Fashion and Textile Design +

The Minor in Fashion and Textile Design provides knowledge applicable to the fashion and textile design industry in Colombia. Emphasis is placed on environmental and social sustainability in creative processes and products, incorporating local techniques and traditions.

Minor in Video Game and Animation Design +

The Minor in Video Game and Animation Design provides technical skills and strategies for the profession.

Musical Theater

Make your dreams of acting, singing, and dancing come true at the most experienced Musical Theater school in Colombia. Become a complete artist and surprise your audience on any stage.

Introduction

The Musical Theater program at Universidad del Rosario provides a comprehensive education in the three disciplines that comprise this performing arts genre. You will learn interpretive techniques to convey emotions on stage, develop vocal skills for singing, and discover how to tell stories with your body through dance. You will find a space to express yourself and create new artistic languages that reflect your potential and the cultural diversity that surrounds us.

Program Highlights

- The Musical Theater program at Universidad del Rosario is supported by MISI Productions, the company with the most experience in this genre in Colombia.
- You will receive support and guidance from actors, musicians, and dancers with extensive national and international experience.
- Starting in the fourth semester, you can participate in MISI Productions' shows and gain acting experience while studying.
- Additionally, at the Faculty, you can pursue a double program from the first semester or apply for an international exchange program starting from the fourth semester, which will allow you to create the career of your dreams.

Curriculum:

The Musical Theater program provides professional training in the three disciplines of the genre: theater, music, and dance, making you an integral artist. You can work in various professional spaces such as theater, television, film, dance, singing, and voice acting. This program will provide you with a fertile space to develop your expressive proposals and reflect the diversity and cultural richness of Colombia.

MISI is a platform that fosters the cultural and creative development of musical theater in Colombia. The school has trained over 25,000 artists in dance, singing, and acting, while the company has produced more than 30 professional shows. Every December, we present a Christmas show that attracts over a million viewers, consolidating a unique tradition in the country. Our mission is to promote artistic development in Colombia to build a better country through art, with three main objectives: to train versatile artists, create and produce original musical theater titles, and produce major titles from the universal repertoire in collaboration with global producers.
